Climate Change Impacts on Alpine Mass Movements

Dr. Jürg Schweizer

EnviDat

Dr. Gian-Kasper Plattner

Energy Change Impact

Dr. Astrid Björnsen Gurung

The SLF is part of the WSL, the Swiss Federal Institute for Forest, Snow and Landscape Research. The SLF is home to four research units. Some of these work exclusively in Davos and thus belong to the SLF, while others are located in WSL facilities in Birmensdorf (main facility), Lausanne and Bellinzona. 27.6.2019
