

# Moderate avalanche danger will be encountered over a wide area

Edition: 22.11.2017, 17:00 / Next update: 23.11.2017, 17:00

## Avalanche danger

**region D** **Level 1, low**

From a snow sport perspective, in most cases insufficient snow is lying. Individual avalanche prone locations are to be found in particular in extremely steep terrain. Apart from the danger of being buried, restraint should be exercised in particular in view of the danger of avalanches sweeping people along and giving rise to falls.

### Remarks

From a snow sport perspective, in most cases insufficient snow is lying. Individual avalanche prone locations are to be found in particular in extremely steep terrain. Apart from the danger of being buried, restraint should be exercised in particular in view of the danger of avalanches sweeping people along and giving rise to falls.
