

# In the west a high avalanche danger will be encountered in some regions

Edition: 10.12.2017, 17:00 / Next update: 11.12.2017, 17:00

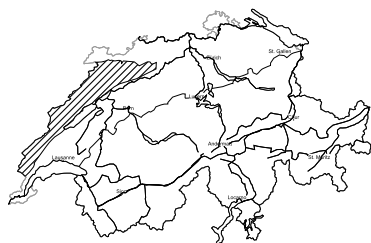

## Avalanche danger

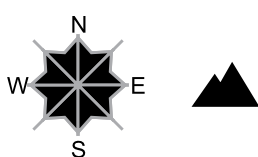

**region H**

**Level 2, moderate**

### Wet avalanches

#### Avalanche prone locations

#### Danger description

As a consequence of the rain more wet snow slides and avalanches are to be expected, but they will be mostly small.
