

# During the night a high avalanche danger will persist in some regions

Edition: 30.12.2017, 17:00 / Next update: 31.12.2017, 08:00

## Avalanche danger

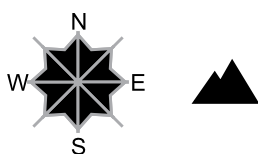

region F

Level 2, moderate

### Wet and full-depth avalanches

#### Avalanche prone locations

#### Danger description

The snowpack is wet all the way through over a wide area. Small and medium-sized full-depth and wet avalanches are to be expected, this applies in particular during the night. Backcountry touring and snowshoe hiking call for careful route selection.

Danger levels

1 low

2 moderate

3 consider.

4 high

5 very high
