

A very critical avalanche situation will be encountered over a wide area

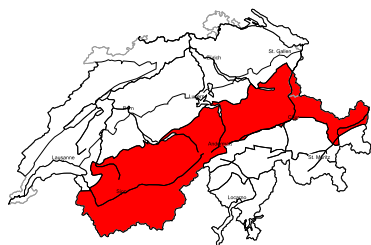

Edition: 4.1.2018, 08:00 / Next update: 4.1.2018, 17:00

Avalanche danger

region A

Level 4, high

Fresh snow and snow drifts, old snow

Avalanche prone locations

Danger description

Numerous medium-sized and large avalanches are to be expected. Avalanches, capable of reaching the valleys, must be expected. The peak of avalanche activity will be reached in the afternoon probably. Exposed buildings and transportation routes are endangered over a wide area. Temporary safety measures are to be reviewed. The conditions are very dangerous for snow sport activities outside marked and open pistes.

Wet and full-depth avalanches

As a consequence of the rain numerous full-depth and wet avalanches are to be expected below approximately 2000 m. Slides can occur on cut slopes. Exposed parts of transportation routes can be endangered.

Danger levels

1 low

2 moderate

3 consider.

4 high

5 very high
