

Considerable avalanche danger will be encountered in some regions. Full-depth avalanches on steep grassy slopes

Edition: 25.1.2018, 17:00 / Next update: 26.1.2018, 08:00

Avalanche danger

region F

Level 1, low

Full-depth avalanches

On steep grassy slopes full-depth avalanches are possible. They can be released at any time of day or night. Areas with glide cracks are to be avoided as far as possible.

Snow drifts

The small snow drift accumulations of the last few days are to be evaluated with care and prudence in extreme terrain. Restraint should be exercised because avalanches can sweep people along and give rise to falls.
