

# Considerable avalanche danger will be encountered in some regions. Fresh snow drifts require caution

Edition: 1.2.2018, 17:00 / Next update: 2.2.2018, 08:00

## Avalanche danger

### region E

### Level 1, low

#### Full-depth avalanches

On steep grassy slopes full-depth avalanches are possible. They can be released at any time of day or night. Areas with glide cracks are to be avoided as far as possible.

#### Old snow

Individual avalanche prone locations for dry avalanches are to be found in particular in extremely steep terrain. Even a small avalanche can sweep snow sport participants along and give rise to falls.

#### Danger levels
