

# Outside marked and open pistes a considerable avalanche danger will be encountered over a wide area

Edition: 16.2.2018, 08:00 / Next update: 16.2.2018, 17:00

## Avalanche danger

**region F**

**Level 2, moderate**

### Snow drifts

#### Avalanche prone locations

#### Danger description

Fresh and somewhat older snow drift accumulations are small but in some cases prone to triggering. They are to be evaluated with care and prudence.

### Wet and full-depth avalanches

As a consequence of the rain mostly small full-depth and wet avalanches are to be expected. This applies in all aspects. Exposed parts of transportation routes can be endangered.

**Danger levels**

1 low

2 moderate

3 consider.

4 high

5 very high
