

# Considerable avalanche danger will be encountered over a wide area

Edition: 2.3.2018, 08:00 / Next update: 2.3.2018, 17:00

## Avalanche danger

**region F**

**Level 2, moderate**

### Snow drifts

#### Avalanche prone locations

#### Danger description

Fresh and somewhat older snow drift accumulations are mostly small but prone to triggering. They are to be evaluated with care and prudence in steep terrain. Apart from the danger of being buried, restraint should be exercised also in view of the danger of avalanches sweeping people along and giving rise to falls.
