

In the west a considerable avalanche danger will be encountered in some regions. Snow drifts require caution

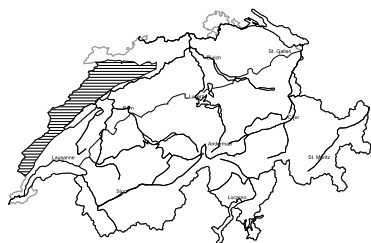

Edition: 4.3.2018, 17:00 / Next update: 5.3.2018, 08:00

Avalanche danger

region D

Level 1, low

Wet avalanches as day progresses

As a consequence of warming during the day and solar radiation small moist snow slides and avalanches are possible.
