

Considerable avalanche danger will be encountered over a wide area

Edition: 13.3.2018, 17:00 / Next update: 14.3.2018, 08:00

Avalanche danger

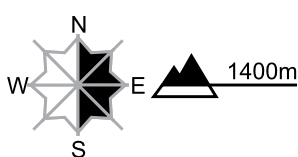

region F

Level 2, moderate

Snow drifts

Avalanche prone locations

Danger description

The more recent snow drift accumulations are small but in some cases prone to triggering. They are to be evaluated with care and prudence in particular in terrain where there is a danger of falling.

Wet avalanches as day progresses

Wet snow slides are possible.
